## Short Description

---

Electrohydraulic tire changer for trucks and buses; clamping range up to 26"

## Description

- Warp-resistant construction with high precise laser cut manufacturing and robotic welding
- Electrohydraulic lifting, lowering, clamping with four clamping claws and turning the clamping arm
- Hydraulic drive of the carriage including two different bead breaker rollers
- The mounting arm on the slide is manually swingable with hydraulic angle adjustment of finger
- Mobile control unit with manual hydraulic control valves
- High resistant powder coating with attractive hammer scale painting design
- Scope of delivery: Tire lever and bead holder
- Perfect tire changer for truck and bus wheels up to 26", with optional accessories also for alloy rims

## Additional Information

|                      |                |
|----------------------|----------------|
| Rim diameter max.    | 120 – 425 mm   |
| Rim diameter max.    | 26"            |
| Max. wheel diameter  | 1.400 mm       |
| Max. Wheel width     | 470 mm         |
| Wheel weight max.    | 380 kg         |
| Bead breaker force   | 2.000 kg       |
| Mounting speeds      | 8 U/min        |
| Driving power        | 3 kW           |
| Power supply voltage | 3x 400V / C16A |
| Noise level          | < 70 dB(A)     |
